WHAT WE'VE BEEN UP TO LATELY

November was filled with lots of gearing up for the holiday season. We added some Christmas trees to the front of the alley, participated in the Ottawa Area Chamber of Commerce Welcome Santa Parade with help from the Ottawa Elementary STEM program, and launched our first Ottawa Light Up Contest. See the back for photos from the Light Up Contest! Such great displays! We hope next year to have even more! We also enjoyed presenting about Go Ottawa to the OG Rotary Club. If you are in a group that you think would like to hear from us, please just reach out to hello@go-ottawa.com. We are happy to present! We also attended a great Heritage Ohio training in Piqua in November. Happy Holidays from Go Ottawa!

Greetings! I am thrilled to be a part of an organization dedicated to fostering growth, connectivity and a vibrant future for our community. As a public educator, my journey to Go Ottawa has been shaped by a genuine love for Ottawa and a commitment to enhancing the quality of life for its residents... both current and future. I believe in the power of collaboration and community-driven initiatives to create positive change. At Ottawa Elementary, we are dedicated to instilling a sense of responsibility and community service in our students. Education goes beyond the walls of the classroom, and our school actively seeks to engage with the broader community, such as staff participation in a community-based Educator Bootcamp, inviting community leaders to be involved in the Amazing Shake competition, and OE middle school students working alongside Go Ottawa to promote the cause in the Christmas parade. We understand the importance of collaboration between schools and the community in promoting holistic development, and are grateful for Go Ottawa's partnership. I invite everyone to get involved. Whether through volunteering, attending community meetings, or participating in upcoming events, your engagement is crucial to the success of Go Ottawa's initiatives. Together, we can build a stronger, more connected community for ourselves and future generations.
